

Dear Clients,

Due to the recent volatility in the global economy including a declining AUD, and increasing supply costs, we find it necessary to amend our pricing. Effective immediately, pricing across the board will increase by 4%. We will continue to assess each SKU over time on a case by case basis to ensure they are inline with current landed costs, and as always, will continue to provide you with the best quality product at the lowest possible price.

We have avoided raising our prices for as long as possible, but we can no longer prolong the inevitable. We wish to thank you for your valued support and know that you will understand the necessity in the current market.

Kind regards,

Chad Coster | General Manager
